

# The Flame of Hope

It sheds light on both sides,  
For the positive to shine forth,  
And  
The negative to demise,

It awakens the creative self within,  
To create a brighter future;  
A future of cooperation,  
Abundance and new  
Economic paradigm -  
The paradigm of Mahatma,  
The equality of Martin,  
And,  
The co-existence of Nelson,

It always sings the high note  
Of  
Love, Compassion,  
Kindness and Oneness,  
In the midst of diversity  
And differences,

It promotes  
World peace and harmony,

O Mankind  
Let us be in resonance  
With the Flame of Hope  
And,  
Light our path ahead,  
With High Hope,
